The Obstacles Associated with Conducting Scientific Research

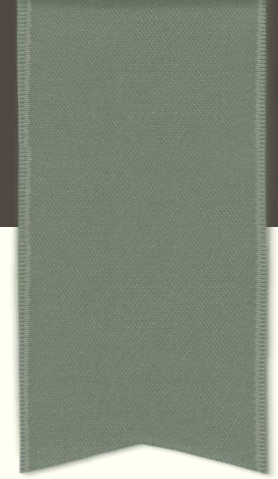

Presentation By : Haya Elfessi

1/7

Contents

- The difficulties faces the scientific researcher
- Examples
- References

THERE IS A LOT OF DIFFICULTIES FACES THE SCIENTIFIC RESEARCHER:

Examples :-

1- Lack of spending and lack of financial budgets to finance scientific research.

2- CHOOSING THE RIGHT TOPIC:

The process of selecting the right topic of research is one of the first difficulties faced by researchers since the rest of research steps are based on it.

3- Choosing The Right Methodology

- The motivation and objectives of research and finding the appropriate methodology in the research model is one of the difficulties faced by the researcher.

4- Find Participants

- Finding participants to fill out research questionnaire is a major challenge for the researcher.

5 – Convince Institutions To Participate

- Some research requires that institutions fill out questionnaires. The difficulty is to persuade these institutions to participate in the study.

In the end all, the difficulties of Scientific research can be solved and overcome
