

WHAT IS PHARMD PROGRAM

Doctor of Pharmacy programs focus on providing drug therapy that improves patients' quality of life. It involves interaction with patients and healthcare providers. The field is an integration of pharmaceutical and clinical sciences. Students will learn how to initiate or modify drug therapy and disease state screenings.

INITIATION OF THE PROGRAM IN LIBYA

PharmD program started at Libyan International medical University (LIMU) in the year 2016.

VISION

To occupy a regionally advanced position in the fields of pharmaceutical education, research and community service.

MISSION

- Implementing new pharmaceutical education programs based on science, clinical skills and professional behavior.
- Applying quality management systems in line with local, regional and international standards.
- Carrying out research that meets the needs of the community with a commitment to professional ethics.

PHARMD GRADUATES WILL WORK IN:

- Chain pharmacy
- Independent pharmacy
- Hospital pharmacy
- Clinical pharmacy
- Managed care
- Industry
- Consultant pharmacy
- Academia
- Nuclear pharmacy
- Government agencies

VALUES

Excellence and integrity in teaching, research, practice and service.
